

Hide Price - Call for Price - MAGENTO 2

USER GUIDE - version 1.0.0

1. Introduction

This extension allow store owner to replace the price with many options (HTML content, a popup form or a static block). You can select categories, customer groups or specific products to hide price and show the replacement content.

Features

- Replace the price info with flexible options (HTML content, a popup form, a static block)
- Hide prices from selected customer groups
- Hide prices from selected categories
- Hide prices for specific products (new product attribute)
- Able to hide “Add to cart”, “Add to Wishlist”, “Add to Compare” as well
- Send email to store owner when a customer submit price request
- Multi store supported, easy to translate the content

2. How to use

- Upload our module package to your Magento root directory
- Run these commands via SSH to install the extension:
php bin/magento setup:upgrade
php bin/magento setup:static-content:deploy -f
- Go to Store -> Configuraiton -> Magezend Extensions -> Hide Price, to configure the module.
- Clear cache after saving configuration to see the result in frontend.
