 Gift wrap \$0.00

The 2-Step checkout page is a page with 2 separate steps.

Customers have to complete each step before going to the next one. On the One Step Checkout page, all steps appear simultaneously. Customers can fill in/edit information of any steps any time. This improvement can save Customers 2-3 minutes for checkout.

2.2. Login/Sign form.

If Customers already have an account, they can click on Click here to login or create a new account. A popup will be displayed. They just need to enter their email address and password then click on the Login button.

The image shows a 'LOGIN' popup window with a green header. The header contains the word 'LOGIN' in white and a close button 'X' in white. Below the header, there are two input fields. The first is labeled 'Email address *' and contains the text 'quyna'. The second is labeled 'Password *' and contains a series of dots. Below the input fields, there are two links: 'Forgot your password?' and 'Create a new account', both in green text. To the right of these links is a green 'LOGIN' button.

- If Customers forget their password, they can click on Forgotten your password? Then enter their email address and click on the Send password button. The module will send a new password to their email address.
- If Customers don't have an account in your site, they can create one right away by clicking Create a new account, filling in the required information, then click Register. The new account will be created before placing orders.

2.3. Billing Address, Shipping Address

CREATE A NEW ACCOUNT X

Please enter the following information to create a new account.

First Name *

Last Name *

Email address *
