

MAGENTO 2

USER GUIDE - version 1.0.0

1. Introduction

Product reviews are an essential part of an online store's branding and marketing. They help build trust and loyalty, and describe how customer think about your products. The more reviews you have, the more convinced a shopper will be that they're making the right decision.

Review Image Extension allows customer to upload images for their review. Reviews accompanied by pictures tell a better story, make your product reviews more trustworthy and increase conversion rate.

Using this extension, you give your customer a great way to share their experiences, tell others how your products are in real-life. The product images from your customer will make your product page amazing!

Highlight Features:

- Allow customer to upload multiples images while submitting product review.
- Show review images in review listing on product page.
- Admin is able to manage images of each review in backend.
- Able to configure the maximum number of images per review.

Compatibility:

Magento 2.0.x, 2.1.x, 2.2.x, 2.3.x

2. How to install and use

- Upload the module package to your Magento root directory
- Execute following commands via SSH

```
cd MAGENTO_ROOT_DIRECTORY
```

```
php bin/magento setup:upgrade
```

```
php bin/magento setup:static-content:deploy
```

```
php bin/magento cache:flush
```

- Go to Store -> Configuration -> Magezend Extension -> Review Image to configure the module.
- Clear Magento cache after changing configurations.

Customer Reviews

I've had this thing for really long

Rating ★★★★★

I've had this thing for a really long time and it barely shows any signs of wear and tear. It's really big, too! I've taken it on day trips as well as short vacations and usually have no trouble finding room for my stuff.

Fits tons of gear

Rating ★★★★★

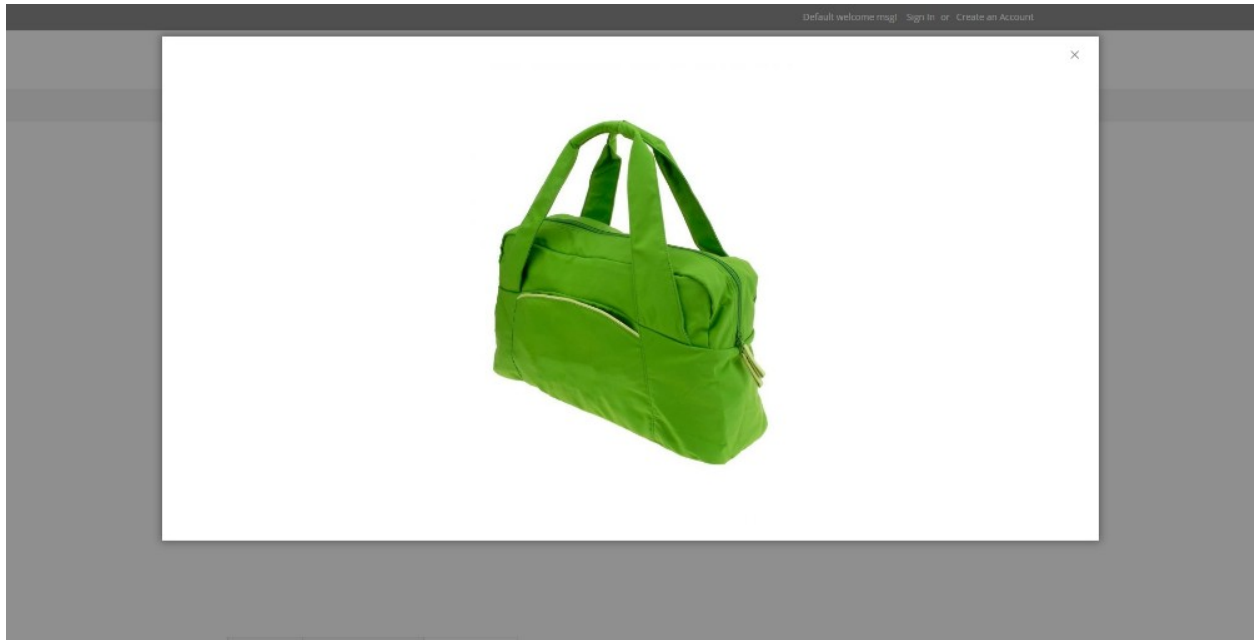

I take this along whenever I head up to my cabin. Fits tons of gear plus a few of my favorite electronics. And duct tape.
